### **PROFESSIONAL EXPERIENCE**

#### **Web Developer – University of South Florida (USF)**

May 2023 – Present

- Build responsive web pages and email templates using HTML, SCSS, MJML, and JavaScript
- Support Slate CRM workflows with dynamic, token-driven, and personalized content
- Help transition marketing workflows and data processes from HubSpot to Slate
- Troubleshoot rendering, data, and cross-browser issues across web and email

#### **Software Engineer – Care2 (Remote)**

Feb 2021 – May 2023

- Built responsive web interfaces using HTML, CSS, JavaScript, and jQuery
- Translated design mockups into production-ready components
- Tested and debugged cross-browser issues to ensure consistent UX
- Collaborated in Agile workflows to deliver client-facing features

### **PROJECTS**

#### **PrimalMarket – Full-Stack Marketplace**

- Designed and built full transaction lifecycle including listings, checkout, escrow, and payouts
- Integrated Stripe and PayPal for multi-item cart checkout and payment processing
- Implemented escrow system with 14-day auto-release
- Developed real-time messaging system and admin dashboard with analytics and CMS

### **SKILLS**

**JavaScript, TypeScript, React, Next.js, HTML, SCSS, Node.js, Express, MongoDB, MySQL, Stripe, PayPal, AWS Cognito, Docker, Git**

### **EDUCATION**

B.S. Web Design & Development – Full Sail University (4.0 GPA, Valedictorian)
